Profile

High school graduate planning to study Data Science Engineering. Web developer who builds websites and interactive interfaces with React, TypeScript, and Tailwind CSS, with a strong focus on UI/UX. I have developed an educational board game with a 3D board using React Three Fiber, as well as themed prototypes with modern interface components. I am focused on continuous learning, collaboration, and delivering clear results.

Technical Skills

- Frontend: React, TypeScript, JavaScript, Vite, Tailwind CSS, HTML, CSS, UI/UX
- Visualization/3D: Three.js / React Three Fiber, KaTeX
- Backend concepts: .NET, C#, Minimal APIs
- CMS: WordPress, Gutenberg, Jetpack
- Tools: Git, GitHub

Featured Projects

- Kronos PC - Futuristic Store (School Project) School project focused on developing a website for Kronos PC, a fictional company dedicated to selling computer components, prebuilt PCs, and specialized technical support.
 - Technologies: React, TypeScript, Vite, Tailwind CSS, React Router, i18n
 - Contributions:
 - Built a filterable component catalog by category and prebuilt PCs by use case: gaming, content creation, and office work
 - Added multilingual support in Spanish, English, and French with persistent language preference
 - Implemented real-time currency conversion for MXN, USD, and EUR with fallback exchange rates
 - Designed a futuristic interface focused on UI/UX, accessibility, and an email-based quote request form
 - Code: [Repository \(previews/kronos-pc\)](#)
- Monopoly de Derivadas (React + 3D) Educational Monopoly-style game for practicing derivatives with a 3D board, animations, mathematical rendering, and local multiplayer.
 - Technologies: React, Vite, Tailwind CSS, React Three Fiber, KaTeX
 - Contributions:
 - Structured the project as a single-page application with React and reusable components
 - Built the 3D board and player pieces with React Three Fiber
 - Rendered mathematical expressions with KaTeX
 - Implemented animations and a local game flow
 - Code: [Repository \(previews/monopoly-derivadas\)](#)
- Agricultural Drone (SPA) Interface with modern UI components, visualizations, and interactive sections for an agricultural drone concept.
 - Technologies: React, Vite, Tailwind CSS
 - Contributions:
 - Designed a responsive layout and smooth navigation
 - Built interactive components and themed visualizations
 - Maintained visual consistency and basic accessibility

- Code: [Repository \(previews/drone-agricola\)](#)
- Underwater Drone (SPA) Themed portfolio with technical sections and custom UI components.
 - Technologies: React, Vite, Tailwind CSS
 - Contributions:
 - Built informative sections with a UI/UX focus
 - Created reusable components and consistent styles
 - Code: [Repository \(previews/drone-submarino\)](#)
- calculoapis (.NET) Minimal proof-of-concept API built with .NET Minimal APIs.
 - Technologies: .NET, C#, Minimal APIs
 - Contributions:
 - Defined basic endpoints and the initial project structure
 - Learned minimal patterns for exposing HTTP services

IAI Projects (International American Institute)

Activities developed as part of the IAI Dual Certification program, which has been completed.

- WordPress Web - The Golden Crumb (IAI) Fictional cookie shop created on WordPress.com with Gutenberg blocks: home menu, About page, contact form, and site navigation.
 - Technologies: WordPress, Gutenberg, HTML, Jetpack
 - Contributions:
 - Built pages with Gutenberg blocks and site navigation
 - Created the contact form and content structure
 - Code: [Repository \(previews/iai-wordpress-iai\)](#)
 - Site: WordPress site (access unavailable)
- Personal Page - Interactive (IAI) Personal page with JavaScript: a button to toggle text, name validation in a form, and a background color changer.
 - Technologies: HTML, CSS, JavaScript
 - Contributions:
 - Added JavaScript interactivity with events, validation, and DOM manipulation
 - Code: [Repository \(previews/iai-secondproject\)](#)

Education

- Royal High School - Graduate (Certificate of Completion) Academic goal: study Data Science Engineering.
- Dual Certification - IAI (International American Institute), certification earned Dual certification program focused on web development with WordPress/Gutenberg and JavaScript, plus UX/UI and accessibility evaluation.

Languages

- Spanish: Native
- English: Intermediate

Interests

- Frontend and backend software engineering, interactive visualization, interface design, and applied data science.
